

Windows 7 Mainstream Support ended 13 Jan 2015

Posted on Jan 30, Posted by [Paul](#) Category [Technology News](#)

Every Windows product has a lifecycle. The lifecycle begins when a product is released and ends when it's no longer supported. Knowing key dates in this lifecycle helps you make informed decisions about when to upgrade or make other changes to your software. **Windows 7 has now entered the Extended Support Phase.**

For more information see the [Windows Lifecycle Fact Sheet](#)

Please Note: Microsoft announced that upgrades to Windows 10 will be free for the first year (after the release of Windows 10) to "Qualifying" Windows 7 and Windows 8 customers.

Windows 10 is scheduled to be released "Late 2015".

Please call for more information or if we can help you with anything else.
